Applications:

- FUL/MAL/18/01395 PP-07261246

The Habitat Improvement Project at RSPB Old Hall Marshes, has been designed to improve and restore the habitat condition of the marshes for a wide range of internationally important wintering wildfowl and locally important breeding waders and other species. To do this we will create 7,200 square metres of new scrapes (seasonally flooded wetland features), create 3 new islands approximately 120 square metres in size, excavate 610 metres of new footdrains, re-profile 1035 metres of existing footdrain, create 500 metres of bunds across a semi-improved grassland field, and repair and renovate 12 historical but degraded crossing points found in the ancient marshes. Full details can be found in the supporting documents. There is no change of use associated with this proposal, the site will be managed in the same way and for the same purpose after the proposed habitat improvements.

Old Hall Marshes Old Hall Lane Tollesbury Essex
